

Parcial 1 – Análisis Numérico

Marzo 1 de 2019

David Herrera Caicedo

1. Primer Punto

a.

b. (ii)

La variación fue de: 0.01317202 Su variación porcentual fue de:
1.317202 %

El número de condicionamiento es: 7 La cota de error es $0.1 = 10\%$

2. Segundo Punto

a.

```
